

NOAA's Hazardous Materials Response Division Drift Card Team

hereby thanks

We appreciate your effort in reporting information about Drift Cards found in the Hawaiian Islands.

Our study greatly benefits from your contribution!

Mahalo!

Presented:

Ruth Yender

Ruth Yender, Drift Card Study Lead

NOAA's Office of Response and Restoration, Hazardous Materials Response Division, is conducting a Drift Card Study with cooperation from Clean Islands Council Spill Response Cooperative, Chevron, Tesoro, NOAA's National Weather Service, and the U.S. Coast Guard. The NOAA Coral Reef Conservation Program supports this Drift Card Study.
